

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

F *ALL* the devices the ingenuity of bookmen has yet hit upon to secure the attention of the reader, none has been more widely used or more successful than a terse, apt, suggestive quotation. SHAKSPERE has been most frequently drawn upon, and his playwright's wit is ready and potent yet, after all these centuries, to help various literary wares to a good market.

The above appeared several years ago in the magazine called *Shakespeareana*, followed by a citation of some dozen examples. Believing a more complete list would be of interest, the following classified arrangement is offered. A few of these are implied or suggested by a quotation, and the precise text is not employed; but the derivation is not to be mistaken, for such a happy collocation of words as "Fortune's Boats" could only be inspired by the speech of Pisanio in *Cymbeline*.

Apparently the first use of SHAKSPERE as title maker is Leigh Hunt's "Table Talk"; then follows Hawthorne's "Twice Told Tales," after which Charles Kingsley with "Westward Ho!" The greater portion of these are, however, books published within the last twenty years. Mr. Howells easily leads with thirteen titles; Mrs. Brodhead is author of five books,

four of which owe the felicitous combination of words which form their titles to SHAKSPERE.

It is interesting to note how much the play of *Hamlet* exceeds all the rest as a source of inspiration, about one-third of the entire list being taken from that tragedy. *As You Like It* is next in favor, followed closely by *Macbeth* and *Othello*. In the case of the former, one title is used by three authors, which brings that play two numbers higher in the list than otherwise would be warranted. Dramatists do not often find suggestions for titles in the works of the great master—only seven names seem to have their origin in his language.

The act or scene in which these quotations occur is not given, as those unfamiliar with the text will enjoy the search and, failing to locate the lines at once, are sure to hit upon some others well worth the reading. Nor does this list claim completeness—indeed it may be, while this is printing, a half score of others are in process of incubation! Think of the good books that could be written with (at present unused) titles such as "The Whirligig of Time," "Blind Cupid," "Our Little Life," "A Poor Player," "A Friar of Orders Grey," "Vaulting Ambition," and "One Man in His Time."

V. S.

"Let there be gall enough in thy ink, though thou write with a goose-pen, no matter: about it."

—Twelfth Night.

Note

1911

DURING an interval of ten years this List has been more than trebled, and that without any special search; and many of the added titles were in use long before the former issue. The proportion remains about the same: *The Merchant of Venice*, *Julius Caesar*, *Twelfth Night* and *Othello* tie. Every play is now drawn upon. *Troilus and Cressida* furnishes four titles—each the same quotation.

One interesting point is the increase of titles for plays, fifty-two, against seven, and in most cases they are very apt. One of them dates from 1776, and seventeen are from the play of *Hamlet*.

It is possible that some authors may use these quotations unconsciously—but HERE they are!

V. S.

*"The dedicated words which writers use
Of their fair subject, blessing every book."*

—Sonnets

Thanks are due Mrs. A. N. Currier for the suggestion of Thirty-six titles not previously located
